NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Bob Hamilton, publisher of the Iowa Park Leader, wrote the following column to the graduates of Iowa Park and we feel that it is worth repeating for the graduates of Hamlin.

To you graduates:

You've done it! That goal you've been searching and working for is now at hand. It is a major milestone in your life.

But as important as graduation is to you today, its importance will wane in the future. You will have new goals and new horizons to achieve, each slightly more important than your currently attained plateau of life.

What concerns me most, are the words that are spoken by graduation ceremony speakers, as well as politicians during election years, as long back as I can remember. "Our nation is at a major crossroads. Our future is uncertain. It is up to you to get us back on the right path."

Any nation is always in such a situation. Problems are a part of life. Utopia is a subject in a novel. But it is a goal.

National and world problems always seem their greatest, at any time of graduation. They seem their worst, because they are here and now. Next year's graduates will think the problems of the world today are petty to those at the time of their graduation. Those graduating 25 years ago had no doubt their's were worse than those 25 years prior to their graduation. And so it goes.

The main thing, is to try. Keep faith. Work for the betterment of yourself, your nation and your world. And above all be honest.

One must be honest with himself first, and then to others, equally.

In being dishonest, one need not utter an outright lie. Omission of fact, distortion, whatever. That's a lie of equal proportion.

There aren't many truly honest people who are not working, and happy, today. I really believe that. An honest person will do his dead level best at any task or assignment he is given. And when he does that, he will have gainful employment. Maybe not immediately, but it will come.

For instance, I know a man here in Iowa Park who has a very responsible and satisfying job with our new industry, Cryovac. His name is not important, but his background is.

He was first hired as a floor-

FOR SCHOOL BUILDING PLANS—

School Board Hires Architectural Firm

In a called board meeting here Tuesday evening, the Trustees of the Hamlin Independent School District hired the architectural firm of Riherd and Huckabee of Andrews to work on plans to replace the junior high

building and auditorium destroyed in the March fire. The board also hired the firm of George B. Buescher and Co., Inc., of Abilene as finance consultant for the district.

Garage Sale Planned to Aid Local Campers

A garage sale to aid campers to attend Camp Roadrunner, residential summer camp for mentally retarded people, will be held at 515 West Lake Drive Thursday, Friday and Saturday, June 5, 6 and 7.

Six campers from Hamlin are making plans to attend the July 12-19 camp which is held on a campsite provided by the Butman Methodist Church Encampment, 30 miles southwest of Abilene and 15 miles south of Merkel. Camp fee is \$60 per person.

Mrs. C. L. Howard, chairman of the local project, said that many plants would be featured. Donations of other items have also been given and others are invited to give to the sale. Some merchandise from Abilene persons who are interested in the project will be included, she added.

Pool Sets Opening Monday

The Hamlin Swimming Pool will open Monday under the management of Mrs. Ellis West.

Mrs. West said that the Monday opening will be if weather permits. Hours will be from 1:30 to 6 p.m. Monday through Saturday. The pool will be open for parties, also. Mrs. West is to be contacted for party reservations.

Swimming lessons will be taught by Coach Bill Grissom. Those desiring lessons should contact him. Lessons will begin June 16. Ten lessons will be taught in a two-week period.

Four Teams Play In Girls Little League Softball

Four girls teams are participating in the Girls Little League Softball League with games at 5:30 on Monday, Tuesday, Thursday and Friday evenings at the Little League Park.

The teams are the Ragdolls, coached by Mrs. Billy Schuette and Mrs. Pam Spalding; the Junior Pipers, coached by Mrs. Ruby Scifres and Mrs. Ella Mae Scifres; the Angels, coached by Mrs. Mary Johnston and Roy Server; and the Goldiggers, coached by Mrs. Mary Ann Pritchard, Mrs. Phyllis Nichols and Tracy Gregory.

The Andrews based architectural firm specializes in school construction and two weeks ago the board visited several of the schools designed by the firm including ones at Denver City, Andrews and Monahans.

Before making their decision the board also had visited schools designed by Firms in Sweetwater and Dallas.

Consensus of the board at the present time appears to be for the district to build a junior high or middle school on the property owned by the district that is now being used by the Little League for their ball park. Consideration is being given to locating an auditorium between the new school and the high school building but final decisions on this will be made following the recommendations of the architects.

In other business the board awarded the contract for repairing the roof of the Primary building to Lydick-Hooks of Abilene for a bid price of \$2,091.00.

Two Submit Resignations From Force

Police Chief Ed Wheat announces the resignation of two patrolmen which will become effective May 31.

Jerry Farnsworth, a patrolman for 18 months, resigned to join his father in his auto and tractor repair business. He asked to remain on active reserve status.

Richard Mullins, a patrolman for three years in the local department, will join the Stamford Police Department. He and his wife, the former Valeta Crow Hartley, will be moving to Stamford.

Visiting in the home of Mr. and Mrs. James F. Covington are their daughter, Marilyn, and a friend, De Etta Bowens, both of Boise, Idaho; and their granddaughter, Cassandra Ross of Dallas.

The board opened new bids on the construction of a fence at the football field but again delayed any decision on the matter until some work done by the low bidder can be observed.

The Trustees interviewed six architectural firms at earlier meetings before narrowing their choice down to the three firms considered Tuesday.

The district received \$486,260 insurance settlement from the fire loss of the Junior High building and is expected to call a bond election in the near future to raise the additional money that will be needed to replace the building. No estimate of the total amount of monies required will be available until the architectural firm works up preliminary plans for the district.

Farmers Union Head to Speak At Roby Monday

Tony Dechant, president of the National Farmers Union, will be the guest speaker at Roby Monday at 8:30 p.m. at the agricultural building. He will be introduced by Jay Naman, president of the Texas Farmers Union.

Dechant has just returned from Paris, France, where he attended the meeting of International Farm Association where the world food and agriculture situation was discussed. The IFA is composed of all general farm organizations of the world except one. Dechant is an official in the IFA. At the Monday meeting, Dechant will talk on the world, national and local situation, will discuss the farm bill that was just vetoed, and explain where farmers should go from this point.

The Farmers Union of Roby invites all the people in the area to attend the informal meeting. A question and answer session will follow.

OUTSTANDING ATHLETES—Winners of the outstanding athlete awards at the All-Sports Banquet are, from left, Kathy Hooper, recipient of the Girls' Basketball Award and Girls' Track Award; Johnny Jones, who received the Back of the Year, Best All-Around Athlete and the Track Award; Tracy

Rowland, winner of the Boys' Basketball Award; and Gerry Young, winner of the Lineman of the Year Award. The awards were presented at the annual banquet sponsored by the Pied Piper Booster Club in the high school cafeteria.

DANGEROUS BUILDINGS ORDINANCE CITY OF HAMLIN

An ordinance defining dangerous buildings within the terms of this ordinance, establishing a Building Standards Commission, providing for the condemnation of dangerous buildings or structures, and providing for the evaluation, repair, and/or demolition of dangerous buildings; providing for the assessment of costs of abatement; providing for the fixing of a lien for the costs of abatement; containing a savings clause; providing for the method of publication of this ordinance; and providing a penalty.

**BE IT ORDAINED BY
THE CITY COUNCIL OF
THE CITY OF HAMLIN,
TEXAS:** SECTION I. All buildings or structures which have any or all of the following defects shall be deemed dangerous buildings:
A. Any building, shed, fence or other man-made structure which is dangerous to the public health because of its condition, and which may cause or add in the spread of disease, or injury to the health of the occupants of it or neighboring structures.
B. Any building, shed, fence or other man-made structure which because of

faulty construction, age, lack of proper repair, or any other cause, is especially liable to fire and constitutes or creates a fire hazard.

C. Any building, shed, fence, or other man-made structure, which by reason of faulty construction or any other cause, is liable to cause injury or damage by collapsing or by a collapse or fall of any part of such structure.

D. Any building, shed, fence or other man-made structure, which because of its condition or because of lack of doors or windows is available to and frequented by malefactors or disorderly persons who are not lawful occupants of such structure.

E. Any building, shed, or other man-made structure so constructed or permitted to be so constructed as to constitute a menace to health or safety including all conditions conducive to the harboring of rats or mice or other disease carrying animals or insects reasonably calculated to spread disease, and including such conditions hazardous to safety as inadequate bracing or use of deteriorated materials.

F. Any building, shed, or other man-made structure that has become deteriorated through natural causes or by damage through exposure to the elements, especially wind, hail, or rain, or damage through fire, to the extent that the roof, windows and doors, or portions of the house, building, or structure which protect from the weather, will no longer reasonably protect from the weather.

SECTION II. All dangerous buildings within the terms of this ordinance which shall constitute a menace to the health, morals, safety, or general welfare of its occupants or of the public are declared to be public nuisances and shall be ordered to be vacated, repaired or demolished as herein provided.

SECTION III. It shall be unlawful to maintain or permit the existence of any dangerous building in the city; and it shall be unlawful for the owner, occupant or person in custody of any dangerous building to permit the same to remain in a dangerous condition, or to occupy such building or permit it to be occupied while it is or remains in a dangerous condition.

SECTION IV. There is hereby created a Building Standards Commission to be composed of three members, each of whom shall be a resident of the city of Hamlin. They shall hold office for a period of two years, or until their successors are appointed. As near as practical, they should be qualified in one or more of the fields of fire prevention, building construction, health and public safety. In addition to said three members, the fire marshal, building inspector, and health officer of the city of Hamlin shall be ex officio non-voting members of said Building Standards Commission. Any city employee in the said respective department or division of the city, who shall be designated by the city's secretary, shall be authorized to act as substitute for the respective superior of their respective department or division as ex officio member of said commission. It shall be the duty of the ex officio members of such commission to inspect all buildings or structures reported to be or believed to be dangerous and to present a report of such inspection to the Building Standards Commission, which commission shall notify the proper party of the intention of such commission to hold its hearing and to follow the procedure hereinafter provided.

SECTION V. The following steps shall be taken in the

condemnation of a dangerous building:

1. When it shall come to the notice of the Building Standards Commission that a building or structure in the city of Hamlin is dangerous under the terms of this ordinance, the said commission shall cite said owner of such building or structure, or his authorized agent or representative, to appear, and show cause why such building should not be declared to be a dangerous building and why he should not be ordered to vacate, repair, or destroy such building or structure. The date of such hearing shall be not less than ten (10) days after such citation shall have been made.

2. Such citation may be served by delivery of a copy thereof to the owner of the person in possession, or, if such premises be unoccupied, by attaching a copy of such citation in a place of prominence on such building or structure.

3. On the day set in such citation for hearing, hearing shall be had and on the basis of such hearing the Building Standards Commission shall determine whether or not such building or structure is a dangerous building, then, in that event, the Building Standards Commission shall issue such orders as shall appear reasonably necessary to prevent the said building from being a hazard to life or property and to eliminate the said building or structure's dangerous qualities.

4. The owner of any dangerous building, or his authorized representative, may appeal from the decision of the Building Standards Commission by giving notice thereof within ten days from the date of said hearing and file with the city secretary a fee of \$10. Such appeal shall be to the City Council, and upon the perfection of appeal, the City Council shall set a date for hearing before it and such appeal shall be by trial de novo.

5. Pending appeal, such orders of the Building Standards Commission shall require a vacation of the alleged dangerous building, shall remain in effect, but all other orders of the Commission shall be suspended in their operation.

SECTION VI. The following standards may be followed in substance by the Building Standards Commission in ordering repair, vacation or demolition:

A. If the dangerous building can be reasonably repaired so that it will no longer be in a condition that is in violation of the terms of this ordinance, it shall be ordered repaired.

B. If the dangerous building is in such condition as to make it dangerous to the health, morals, safety or general welfare of its occupants or of the public, it shall be ordered to be vacated.

C. In any case where the dangerous building is 50 percent damaged or decayed, it shall be demolished, and in all cases where a building cannot be repaired so that its existence will no longer be in violation of this ordinance, it shall be demolished.

SECTION VII. Neither the city of Hamlin nor any authorized agent acting under the terms of this ordinance shall be liable or have any liability by reasons of orders issued or work done in compliance of this ordinance.

SECTION VIII. It shall be the duty of the City Attorney of the city of Hamlin to enforce the orders of the Building Standards Commission or the City Council, upon appeal, by filing in the appropriate court of this state, when so authorized by the City Council.

SECTION IX. Any person who shall be ordered by the Building Standards Commission to repair or demolish a dangerous building shall commence such work within 30 days from the date such order becomes final, and all such work shall be completed in 6 months of said date.

SECTION X. If the Building Standards Commission has ordered that the dangerous building be demolished, and the owner or his authorized agent or representative willfully refuses or fails to commence the demolition of said building within the time

NEWS AND VIEWS...

And What Have You

By BOB CRAIG

Bob Hamilton, publisher of the Iowa Park Leader, wrote the following column to the graduates of Iowa Park and we feel that it is worth repeating for the graduates of Hamlin.

To you graduates:

You've done it! That goal you've been searching and working for is now at hand. It is a major milestone in your life.

But as important as graduation is to you today, its importance will wane in the future. You will have new goals and new horizons to achieve, each slightly more important than your currently attained plateau of life.

What concerns me most, are the words that are spoken by graduation ceremony speakers, as well as politicians during election years, as long back as I can remember. "Our nation is at a major crossroads. Our future is uncertain. It is up to you to get us back on the right path."

Any nation is always in such a situation. Problems are a part of life. Utopia is a subject in a novel. But it is a goal.

National and world problems always seem their greatest, at any time of graduation. They seem their worst, because they are here and now. Next year's graduates will think the problems of the world today are petty to those at the time of their graduation. Those graduating 25 years ago had no doubt their's were worse than those 25 years prior to their graduation. And so it goes.

The main thing, is to try. Keep faith. Work for the betterment of yourself, your nation and your world. And above all be honest.

One must be honest with himself first, and then to others, equally.

In being dishonest, one need not utter an outright lie. Omission of fact, distortion, whatever. That's a lie of equal proportion.

There aren't many truly honest people who are not working, and happy, today. I really believe that. An honest person will do his dead level best at any task or assignment he is given. And when he does that, he will have gainful employment. Maybe not immediately, but it will come.

For instance, I know a man here in Iowa Park who has a very responsible and satisfying job with our new industry, Cryovac. His name is not important, but his background is.

He was first hired as a floor-

Johnny Jones Receives Top Awards At Banquet

Johnny Jones, outstanding Hamlin High School athlete, received three top awards at the annual All-Sports Banquet sponsored by the Pied Piper Booster Club Friday evening.

Jones, who has a total of 5,849 yards rushing and scored 422 points during his four years of playing for the Pipers was named Back of the Year. A participant in football, basketball and track, he was named Best All-Around Athlete. He also received the Track Award for outstanding performance in leading the Pipers to their third district championship.

Others receiving high honors were Kathy Hooper, winner of the girls' Basketball Award and the girls' Track Award; Gerry Young, Lineman of the Year; and Tracy Rowland, winner of the boys' Basketball Award.

The program was a film showing the highlights of the 1974 football season and footage featuring Johnny Jones during his four years of high school football. The film was narrated by Coach David Bonds.

Coach Bonds presented the Back of the Year Award and the Best All-Around Athlete Award and recognized those who participated in the football program.

He introduced the other coaches who recognized the students in the other sports.

The girl athletes were presented by Coach Betty Jo Davis, who also presented the outstanding girls' awards.

Line coach Russell Merket, who also coached JV football and basketball, presented the Lineman of the Year Award and recognized the tennis participants.

Track Coach William Grissom recognized the track

participants and presented the Track Award.

Coach Tom Dechairo, head basketball coach and football assistant, in making the presentation of the basketball and golf teams, said that in the past three years of the 18 possible district championships, Hamlin had won 11. He presented the basketball Award.

Junior high school athletes were introduced by David Watson, eighth grade coach, and Tommy Varner, seventh grade coach. Announced as junior high school football sweetheart was Stephanie Hymer. Mark Carter was football hero.

The Rev. Howard Jones was master of ceremonies. L.

FOR SCHOOL BUILDING PLANS—

School Board Hires Architectural Firm

In a called board meeting here Tuesday evening, the Trustees of the Hamlin Independent School District hired the architectural firm of Rihard and Huckabee of Andrews to work on plans to replace the junior high

building and auditorium destroyed in the March fire.

The board also hired the firm of George B. Buescher and Co., Inc., of Abilene as finance consultant for the district.

The Andrews based architectural firm specializes in school construction and two weeks ago the board visited several of the schools designed by the firm including ones at Denver City, Andrews and Monahans.

Before making their decision the board also had visited schools designed by Firms in Sweetwater and Dallas.

Consensus of the board at the present time appears to be for the district to build a junior high or middle school on the property owned by the district that is now being used by the Little League for their ball park. Consideration is being given to locating an auditorium between the new school and the high school building but final decisions on this will be made following the recommendations of the architects.

In other business the board awarded the contract for repairing the roof of the Primary building to Lydick-Hooks of Abilene for a bid price of \$2,091.00.

The board opened new bids on the construction of a fence at the football field but again delayed any decision on the matter until some work done by the low bidder can be observed.

The Trustees interviewed six architectural firms at earlier meetings before narrowing their choice down to the three firms considered Tuesday.

The district received \$486,260 insurance settlement from the fire loss of the Junior High building and is expected to call a bond election in the near future to raise the additional money that will be needed to replace the building. No estimate of the total amount of monies required will be available until the architectural firm works up preliminary plans for the district.

Pool Sets Opening Monday

The Hamlin Swimming Pool will open Monday under the management of Mrs. Ellis West.

BY ORDER OF THE COMMISSIONERS' COURT OF JONES COUNTY, TEXAS.

DANGEROUS BUILDINGS ORDINANCE CITY OF HAMLIN

An ordinance defining dangerous buildings within the terms of this ordinance, establishing a Building Standards Commission, providing for the condemnation of dangerous buildings or structures, and providing for the evaluation, repair, and/or demolition of dangerous buildings; providing for the assessment of costs of abatement; providing for the fixing of a lien for the costs of abatement; containing a savings clause; providing for the method of publication of this ordinance; and providing a penalty.

BE IT ORDAINED BY THE CITY COUNCIL OF THE CITY OF HAMLIN, TEXAS: SECTION I. All buildings or structures which have any or all of the following defects shall be deemed dangerous buildings:
A. Any building, shed, fence or other man-made structure which is dangerous to the public health because of its condition, and which may cause or add in the spread of disease, or injury to the health of the occupants of it or neighboring structures.
B. Any building, shed, fence or other man-made structure which because of

faulty construction, age, lack of proper repair, or any other cause, is especially liable to fire and constitutes or creates a fire hazard.

C. Any building, shed, fence, or other man-made structure, which by reason of faulty construction or any other cause, is liable to cause injury or damage by collapsing or by a collapse or fall of any part of such structure.

D. Any building, shed fence or other man-made structure, which because of its condition or because of lack of doors or windows is available to and frequented by malefactors or disorderly persons who are not lawful occupants of such structure.

E. Any building, shed, or other man-made structure so constructed or permitted to be so constructed as to constitute a menace to health or safety including all conditions conducive to the harboring of rats or mice or other disease carrying animals or insects reasonably calculated to spread disease, and including such conditions hazardous to safety as inadequate bracing or use of deteriorated materials.

F. Any building, shed, or other man-made structure that has become deteriorated through natural causes or by damage through exposure to the elements, especially wind, hail, or rain, or damage through fire, to the extent that the roof, windows and doors, or portions of the house, building, or structure which protect from the weather, will no longer reasonably protect from the weather.

SECTION II. All dangerous buildings within the terms of this ordinance which shall constitute a menace to the health, morals, safety, or general welfare of its occupants or of the public are declared to be public nuisances and shall be ordered to be vacated, repaired or demolished as herein provided.

SECTION III. It shall be unlawful to maintain or permit the existence of any dangerous building in the city; and it shall be unlawful for the owner, occupant or person in custody of any dangerous building to permit the same to remain in a dangerous condition, or to occupy such building or permit it to be occupied while it is or remains in a dangerous condition.

SECTION IV. There is hereby created a Building Standards Commission to be composed of three members, each of whom shall be a resident of the city of Hamlin. They shall hold office for a period of two years, or until their successors are appointed. As near as practical, they should be qualified in one or more of the fields of fire prevention, building construction, health and public safety. In addition to said three members, the fire marshal, building inspector, and health officer of the city of Hamlin shall be ex officio non-voting members of said Building Standards Commission. Any city employee in the said respective department or division of the city, who shall be designated by the city's secretary, shall be authorized to act as substitute for the respective superior of their respective department or division as ex officio member of said commission. It shall be the duty of the ex officio members of such commission to inspect all buildings or structures reported to be or believed to be dangerous and to present a report of such inspection to the Building Standards Commission, which commission shall notify the proper party of the intention of such commission to hold its hearing and to follow the procedure hereinafter provided.

SECTION V. The following steps shall be taken in the

condemnation of a dangerous building:

1. When it shall come to the notice of the Building Standards Commission that a building or structure in the city of Hamlin is dangerous under the terms of this ordinance, the said commission shall cite said owner of such building or structure, or his authorized agent or representative, to appear, and show cause why such building should not be declared to be a dangerous building and why he should not be ordered to vacate, repair, or destroy such building or structure. The date of such hearing shall be not less than ten (10) days after such citation shall have been made.

2. Such citation may be served by delivery of a copy thereof to the owner of the person in possession, or, if such premises be unoccupied, by attaching a copy of such citation in a place of prominence on such building or structure.

3. On the day set in such citation for hearing, hearing shall be had and on the basis of such hearing the Building Standards Commission shall determine whether or not such building or structure is a dangerous building, then, in that event, the Building Standards Commission shall issue such orders as shall appear reasonably necessary to prevent the said building from being a hazard to life or property and to eliminate the said building or structure's dangerous qualities.

4. The owner of any dangerous building, or his authorized representative, may appeal from the decision of the Building Standards Commission by giving notice thereof within ten days from the date of said hearing and file with the city secretary a fee of \$10. Such appeal shall be to the City Council, and upon the perfection of appeal, the City Council shall set a date for hearing before it and such appeal shall be by trial de novo.

5. Pending appeal, such orders of the Building Standards Commission shall require a vacation of the alleged dangerous building, shall remain in effect, but all other orders of the Commission shall be suspended in their operation.

SECTION VI. The following standards may be followed in substance by the Building Standards Commission in ordering repair, vacation or demolition:

A. If the dangerous building can be reasonably repaired so that it will no longer be in a condition that is in violation of the terms of this ordinance, it shall be ordered repaired.

B. If the dangerous building is in such condition as to make it dangerous to the health, morals, safety or general welfare of its occupants or of the public, it shall be ordered to be vacated.

C. In any case where the dangerous building is 50 percent damaged or decayed, it shall be demolished, and in all cases where a building cannot be repaired so that its existence will no longer be in violation of this ordinance, it shall be demolished.

SECTION VII. Neither the city of Hamlin nor any authorized agent acting under the terms of this ordinance shall be liable or have any liability by reasons of orders issued or work done in compliance of this ordinance.

SECTION VIII. It shall be the duty of the City Attorney of the city of Hamlin to enforce the orders of the Building Standards Commission or the City Council, upon appeal, by filing in the appropriate court of this state, when so authorized by the City Council.

SECTION IX. Any person who shall be ordered by the Building Standards Commission to repair or demolish a dangerous building shall commence such work within 30 days from the date such order becomes final, and all such work shall be completed in 6 months of said date.

SECTION X. If the Building Standards Commission has ordered that the dangerous building be demolished, and the owner or his authorized agent or representative willfully refuses or fails to commence the demolition of said building within the time

sweeper when he joined the firm. It wasn't the job he wanted, but it was an opportunity, and he was grateful for it.

His employer said the man was elevated to another, high paying and more satisfying job, as soon as it became available. When asked why, the employer simply said, "Because he was the best floor-sweeper I had ever seen."

In other words, the employee was honest. . . with himself and with his employer. And it has paid off.

I can't say welcome to the world, it's a good one. Your world will be whatever you make of it.

All I want to say is: "Welcome. I'm glad you now have an opportunity to do with your life as you want. Make the best of it."

Pearce Taking Part In Special CFL Crusade

Bob Pearce, who will be playing his fifth season for the Saskatchewan Roughriders in the Canadian Football League, is taking part in a Pro-Athletes In Action Week this week in Edmonton, Canada.

Pearce will be joining more than 25 professional football players from both the CFL and the National Football League for guest appearances in schools, churches and clubs in conjunction with Athletes in Action Canada, a ministry of the Campus Crusade for Christ.

The highlight of the week will be a flag football game between the players of the CFL and the NFL Friday night.

The pro football players will be touring junior and senior high schools in the Edmonton area and relate some of their experiences and express their views on the harmful effects of drugs and alcohol. Each will give a short personal testimony on how his professional and personal life has been enriched through a relationship with Christ.

Some of the top stars of both leagues will be taking part in the week long activity.

Pearce has also been notified that he has been selected to take part in the CFL All-Pro Countdown which will present the superstars of the CFL competing in a series of events for super prize money. These events will be filmed for airing on national television.

The Countdown will be held

in Ivor Wynne Stadium in Hamilton, Canada on June 12 and 13.

Nine players from each of the CFL teams will be competing for a total \$80,000 in prize money. Pearce will represent the Roughriders as an offensive back.

Pearce is the son of Mr. and Mrs. Charles Pearce and is a wide receiver and backup quarterback for the Canadian pro team. He joined the team in 1970.

NEWS FROM ...

McCaulley

By Mrs. Fred Kemp

We finally got that nice rain at McCaulley and now to get the seed planted.

Mr. and Mrs. Alfred Griffin traveled to Palestine last week for a visit to Mrs. Griffin's mother, Mrs. Gertrude Richards. They took Mr. and Mrs. Teddy Current to the Dallas Airport where they will begin their

return trip to Wildflicker, Germany. Teddy and Beverly have been visiting the Griffins and Mrs. Zenobia Current. He is with the U. S. Army at Wildflicker where he will be stationed for at least another year. They like Germany except the trip home is difficult, they said.

Mr. and Mrs. James Griffin of Rotan visited the Alfred Griffins this weekend. James is employed with Rockwell Lumber Company at Rotan.

Rev. and Mrs. George Caffey, Baptist pastor and wife, are on vacation this week. They will be doing some fishing somewhere in New Mexico. The Caffeys will occupy the Davis trailer on weekends this summer.

Visitors in the A. A. Smith home this weekend were Mr. and Mrs. Eddie Smith of Huntsville; Mr. and Mrs. Norman Pond of Gainesville and Mr. and Mrs. Bobby Smith of Friona. They attended the commencement exercises since Arvinelle Smith their youngest sister was one of the graduates and valedictorian of the class.

Mr. and Mrs. Larry Smart of Ranger visited the James Smarts and Rickey Jeffreys this weekend. Larry's sister, Tiny Ann was graduated from high school as the class salutatorian and Kenny Smart graduated from grade school.

Mrs. Martha Alexander of Houston has been visiting with the Gene Stephensons and Bill Youngs this week. Martha's sister Carla graduated into high school. Mr. and Mrs. Freddie Young of Hamlin also attended the commencement exercises.

Mrs. Jewel Hicks of Abilene attended the commencement program to see her granddaughter, Shiela Jeffrey, receive her diploma from junior high.

Our sympathy is extended to the Morris family. Mrs. Morris and family are moving into the Fancher house. Mr. Morris bought the house some time ago and has been having it renovated.

We are very happy to have Mrs. Morris and the grandchildren stay with us.

Eddie Gibson and Randy Williams are home from college this summer and will be working at Celotex.

Julie Hodges of Denton was
